Members of Third Infantry  
Believe One Mexican  
Was Killed

### MACHINE GUN USED BY GUARDS

El Paso, Tex., Dec. 25.—It was reported at the camp of the Third Kentucky Infantry to-day that at least one of the Mexican snipers who fired on First Battalion of the Third Kentucky Infantry was killed when the machine gun belonging to the battalion was used to rout the snipers, who were firing at the American army camp near the cement plant on the American side of the Rio Grande. The snipers fired twenty or more times into the camp of the American soldiers.

Maj. H. H. Denhardt, commanding the First Battalion of the Third Kentucky Infantry at the cement plant, said the sniping started from the vicinity of a little adobe house. There were about ten snipers near this house, Maj. Denhardt said. About as many more opened fire from a point above the house on the side of the mountain.

"This sniping was returned by our outpost," Maj. Denhardt said. "Our men were forced to abandon a fire trench which had been built previously near the river to protect our outpost. The sniping continued until the machine gun was brought into action, and about 100 shots fired. Then the firing stopped, and I am sure we got some of the men who were doing the firing unless they fled before the machine gun opened up. After being driven from the first line trench our men sought shelter in an adobe house and continued firing at the snipers until the machine gun scattered them," Maj. Denhardt concluded.

## KILLS COMRADE; ENDS LIFE

Quarrel Cause of Double  
Tragedy at Dawson  
Christmas Day

Dawson Springs, Ky., Dec. 25. Walter Lantrip 18, son of Sherren Lantrip, was shot and killed by Leslie Bennett, 18, son of Dinnie Bennett, this afternoon. Bennett then committed suicide. The only witness to the double tragedy was a young brother of Leslie Bennett, who was too far away when his brother shot Lantrip, to ascertain what led to the killing. The principals had been boon companions and schoolmates for several years. It is believed they had been drinking, as a party filled bottle of whiskey was found near the scene.

Lantrip and Bennett, accompanied by the latter's brother, were out hunting. According to the latter he was some distance away when he heard his brother and Lantrip quarreling. He was too far off to hear what they were quarreling about, and was horrified a moment later to see his brother level a .22 caliber target rifle at Lantrip and fire. The bullet entered the forehead just over the right eye, penetrating the brain.

Before young Bennett could reach his brother's side, the latter stepped up to the side of his victim, picked up the latter's shotgun, and placing the muzzle in his mouth, pressed the trigger with the toe of his shoe, blowing off his head.

## NEEDY RECEIVED XMAS CHEER

Charity Workers Distributed  
Gifts to Poor of Earlington  
Saturday

### SUNDAY SCHOOLS HAD EXERCISES

In Earlington Christmas was observed on a broader scale this year than in past years. Through the efforts of charity workers Christmas joy went into homes of the city's poor in greater abundance than before.

Christmas cheer was taken into homes of the needy Saturday afternoon when a committee, composed of men and women, representing the various churches of the city, distributed food clothing, coal and toys.

Local merchants, individual Sunday schools and members of the E. K. residing here contributed to the fund which made possible to supply the wants of those in need.

The five Sunday schools of the city observed Christmas with appropriate exercises.

Probably the best exercises of the Yuletide period was held at the M. E. church Monday night. The program consisted of carols, songs, dialogues, recitations and tableaux.

A Christmas tree and a specially arranged program were the features of the exercises at the General Baptist church Saturday night.

The Christian, M. E. Church, South, and Missionary Baptist Sunday schools held exercises Sunday morning. Interesting programs were rendered.

Family Christmas trees were in evidence in many homes.

In police circles the day passed quietly.

## DIXIE LIMITED TO BE FAST TRAIN

Schedule Calls for Only Two  
Stops Between Evansville  
and Nashville

Earlington and Guthrie will be the only stations between Evansville and Nashville that Nos. 98 and 99, the Dixie Limited, will stop, according to the schedule for the new train, which will make its initial trip Jan. 8.

The schedule for the train has not been arranged, but it is understood that No. 98, northbound, will arrive here after No. 92 and No. 99, southbound, just ahead of No. 93.

This will be the handsomest train operated on the Henderson division and it will have the fastest schedule. During January and February tourists go from the North to Florida to escape the ice, snow and low temperatures and this train is to be placed in operation to handle this traffic.

### NOTICE

On and after Jan. 1, 1917, I will, of necessity, raise my price for horseshoeing.

I am forced to do this from the fact shoes have recently advanced about 50 percent, for calk 50 percent and for nails 40 percent and living expenses from 50 to 100 percent so that it is no longer possible to work at the old prices established forty years ago. I use the best material possible to buy, such as Junetta steel shoes, Capwell nails, which is the highest priced nail made and I positively guarantee every job turned out at my shop and will endeavor to give every patron value received at all times. This I have done for the past fifteen years and will continue.

I wish to thank my customers for all past favors and earnestly solicit their future patronage.

### Home-Made Gas

Home-made gas is used by the Span-  
ish people living in the cork-oak re-  
gion of that country, the gas being ob-  
tained from cork refuse. As described  
by one authority, the process consists  
in filling several large teakettles with  
the waste bark, and placing each in  
turn over the fire during the evening,  
burning the volatile gas as it escapes  
from the spouts. The carbonized resi-  
due forms the fine black-brown pig-  
ment known to commerce as "Spanish  
brown."

# Again for \$1—While They Last This Guaranteed Aluminum Cooker

The cost of Aluminum has doubled since we ordered these lifetime  
Cookers. At present prices, this offer would be impossible. So, in all  
probability, after our supply is exhausted, it cannot be made again.

Next week the grocers of this city will once more feature this  
Quaker Cooker offer. And for the last time, we believe.

We have supplied Cookers now to over 1,000,000 homes. We have

users. But this offer ends with our present supply, and probably for-  
ever. Unless Aluminum drops 50 per cent, we cannot again offer a  
Cooker like this for \$1.

But next week only we make the offer below. You can get this  
Cooker for \$1, by buying two of our cereals which should be cooked in it.

This offer is made to induce better cooking. To bring you Quaker  
Oats and Pettijohn's cooked in perfect form, with the flavor kept in-  
tact. Our reward will come in your doubled delight in these foods.

We ask the trademarks just to show that you use our cereals. Unless  
you have the right flakes, right cooking does not help much. But, if  
you use Quaker Oats and Pettijohn's, this cooker is yours for \$1. This  
is for one week only. Get the packages from any grocer named below.

## Quaker Oats

The Extra-Delicious Vim-Food  
Flaked from Queen Oats Only

All the world over Quaker Oats holds first place among oat foods. Oat  
lovers of a hundred nations send to us to get it. A billion dishes are  
consumed each year. Nowhere in the world do connoisseurs find any oat  
food to compare with it.

The reason is this: Quaker Oats is made from queen grains only—just  
the big, plump, luscious oats. No puny starved grains are included. A  
bushel of the choicest oats yields only ten pounds of Quaker.

The result is a flavor which has won the world—a flavor which is match-  
less. Yet these large and luscious flakes cost you no extra price.

Nature stores in oats a wealth of vitality which everybody needs. We  
want you to know this fascinating vim-food, made as we make it and  
cooked in our way.

## Pettijohn's

Rolled Wheat with 25% Bran Flakes  
A Modern Bran Dainty

Every doctor advises bran, as essential to right living. It is Nature's  
laxative. Everybody every day should eat it. It means better health, better  
spirits, sunnier days. Without it, our diet of fine food forces folks to drugs.

Pettijohn's is made to meet doctors' requirements. The bran is hidden  
in savory flakes of wheat. The food is a morning dainty which everybody  
likes. Yet it contains 25 per cent tender bran.

The bran is in flake form, which makes it doubly efficient. Ground bran  
will not do.

Try Pettijohn's one week. Note its delightful effects. Never again will  
you go back to a branless diet.

Then try Pettijohn's Flour. It is 75 per cent fine patent flour mixed with  
25 per cent bran flakes. Use it like Graham flour in any recipe.

## A SYNOPSIS Of The Proposed NEW KENTUCKY REVENUE AND TAXATION LAW

Constitutional Amendment. The new law is in conformity with the Amendment to Section 171 of the Constitution authorizing the General Assembly to—  
Clearly property for taxation.  
Fix the rate of taxation on each class.  
Designate which classes shall be subject to local taxation.

Permanent. The new law provides for a permanent State Tax Commission. Commission to carry into effect the provisions and exercise supervision over the entire question of State Taxation. To devote its entire time to the question and assume the duties of the various boards and commissions now having authority to assess and tax property for State purposes at Frankfort.

Rate of Taxation. The new law fixes the rate of taxation on all taxable property for State purposes at forty cents on each \$100 of assessed value, instead of fifty-five cents, as at present, on all classes of property excepting deposits in bank, which are to be taxed at ten cents on each \$100 for the purpose of encouraging thrift and savings and the circulation of money now sequestered because of excessive taxation. In other respects taxation for State purposes will be absolutely uniform on all classes of property, whether owned by the residents of towns of the country.

Apportionment. The apportionment for each mental, physical, and General Revenue. Expense Fund, the School Fund, the Sinking Fund, the Kentucky University and Road Tax will receive the same exact proportion of the revenue as heretofore.

Real Estate. Real estate will be taxed on its full value at present and according to its locality in the country or town and cities for State purposes at the uniform forty-cent rate, and for county, town or taxing districts at the local rates fixed by the local authorities. The value of real estate depends on its location and surrounding improvements and should naturally contribute towards the maintenance of such improvements.

Personal Property. Personal property is segregated into classes and each class will be taxed uniformly, whether owned by the resident of a town or the country, for the purposes for which it is taxed.

Money and Credits. Money in hand, notes, bonds, accounts and shares of stock in foreign corporations having less than twenty-five percent of their taxable property in Kentucky will be taxed for State purposes only at the uniform forty-cent rate in lieu of all other taxation. Shares of stock in Kentucky corporations and foreign corporations having more than twenty-five percent of their taxable property in Kentucky are exempt from taxation, as the taxes are paid by the corporations.

Machinery. Farm implements and machinery, the machinery of manufacturing establishments, including raw material and product in course of manufacture, will be taxed for State purposes only at the uniform rate of forty cents in lieu of all other taxation.

Mortgages. Mortgages will be taxed for State purposes only at the uniform rate of forty cents, and if for a period exceeding three years, a registration fee of twenty-five cents on each \$100 will be required in order to secure revenue from foreign money lenders on long-time loans, as this is the only Kentucky tax they would have to pay.

Banks and Trust Companies. Banks and trust companies will be subject to the same taxation as at present, but the State tax will be only forty cents instead of fifty-five, as at present, and the assessment will be made by the permanent Tax Commission instead of the State Board of Valuation. Banks have heretofore been assessed on a different basis of valuation from other property, and it is not proposed to disturb this arrangement.

Bank Deposits. Bank deposits are placed in two classes, a separate class and deposits will be taxed at the rate of ten cents on each \$100 on money on deposit September 1, which tax may, however, be paid by the banks for their depositors or by the depositors themselves, and this nominal tax is calculated to largely decrease the deposits in banks, as money not so deposited will be subject to the State tax rate of forty cents.

Railroads and Public Service. Railroads and public service corporations will be assessed by the permanent Tax Commission and the taxes on the various classes of property they may own will be the same as for individuals—forty cents for State purposes on property taxed for State purposes only and such local taxes as the local authorities fix on property subject to same. The value of franchises will also be taxed by the State Tax Commission and the new local taxes will be in lieu of other taxes and bank deposits at ten cents on each \$100.

Merchants. Merchants will be taxed on their real estate and tangible personalty as heretofore, but at the lower State tax rate of forty cents, and each local rate as may be fixed by the local authorities. Notes, accounts and cash in hand will be taxed for State purposes only at the uniform forty-cent rate in lieu of other taxes and bank deposits at ten cents on each \$100.

Manufacturers. Manufacturers will be subjected to the payment of State taxes only on their machinery and raw material and product in course of manufacture, notes, accounts cash in hand and other intangible personalty at the rate of forty cents, and bank deposits at ten cents on each \$100. Their real estate will be subject to State and local taxes as at present.

Farmers. Farmers will be subjected to the present taxation on their land and improvements, but the tax rate for State purposes will be forty cents instead of fifty-five. Agricultural implements and machinery will be taxed for State purposes only at the uniform forty-cent rate. Crops grown within the year are exempt from all taxation. Bank deposits will be taxed at ten cents on the hundred dollars, and this tax may be paid by banks. Cash on hand, notes and accounts, taxable bonds and stocks will be taxed for State purposes only at the uniform forty-cent rate.

Livestock. Livestock will be taxed at all present, but the State tax rate will be forty instead of fifty-five cents.

Household Effects. Household effects, including pictures, musical instruments, furniture, metals and jewelry, will be taxed as at present, but the State tax rate will be forty instead of fifty-five cents, and there will be no precept exemption of \$200 for heads of families.

ALL TAXPAYERS IN FAVOR OF A BETTER TAX LAW SHOULD WRITE TO THE GOVERNOR AND U. S. SENATOR TO CALL A SPECIAL SESSION TO CONSIDER SAME.

Wasted Instruction.  
One day Morton came home from school much discouraged. It seems the teacher had been explaining the difference between pints and quarts, but he failed to understand it. To make it plain his mother showed him the actual milk bottles of the two sizes, when he impatiently declared: "There is no use bothering about this any more. I am not going to be a milk-man."

Injury Done by Lax-Fos.  
"Ah," said the old man, "I only had youth. I lost it, and I never be young again." "Quite true," she rejoined. "Nature makes mistakes, but she never repeats them with the same material."

One Experience  
Convinced Me  
of its Value

"One of our salesmen demonstrated the value of the Long Distance Telephone to us. He was at Huntsville, Ala., and upon his own responsibility put in

Long Distance calls for fifteen merchants within a radius of several hundred miles.

"In less than one hour he had sold 2100 barrels of flour at a total cost to us of less than six dollars."

"Since then we have applied the Long Distance Bell Telephone to every feature of our business with most profitable results. The service is fine, the rates are reasonable and there is more satisfaction in one Long Distance Telephone talk than in half a dozen letters."
